Fidelity ClearPath® Retirement Portfolios

A clear path to retirement

Whether your retirement is just around the corner or still far off, a Fidelity ClearPath® Retirement Portfolio is designed to help you reach a more financially secure retirement. Fidelity ClearPath® Portfolios automatically adjust their investment mix for your time horizon, making you less vulnerable to market swings as you approach your goal. The farther away your goal, the more stocks your Portfolio will hold for growth. The closer you get to your goal, the more bonds and cash your Portfolio will hold to preserve gains and generate income. In good markets and in bad, you're always where you should be.

Fidelity ClearPath® Portfolios help keep your investment mix in line with your long-term financial goals through discipline, ongoing monitoring and appropriate diversification:

Discipline – When volatility creates emotional responses in the market, ClearPath’s investment discipline provides greater peace of mind. Your ClearPath Portfolio will remain focused on your long-term goals, with an investment mix appropriate to your needs.

Monitoring – The ClearPath management team ensures that market fluctuations don’t throw your portfolio out of balance and expose you to additional risk. Your investment mix will remain aligned with your unique needs while becoming more conservative as your target date draws near.

Diversification – Fidelity ClearPath® Portfolios don’t put all your eggs in one basket, but are diversified among several leading Fidelity mutual funds.

Based on a successful pension plan product

Individuals rely on pension plan savings for their retirements, so only products that have the best chance of providing predictable results can succeed in this market. Fidelity is one of the largest lifecycle providers globally, and this success is a testament to the trust that pension plans have placed in our products.

Fidelity ClearPath® Portfolios – not just for retirement

Fidelity ClearPath® Portfolios are a good way to save toward any financial goal with a known time horizon, not just retirement, such as a child's post-secondary education or a vacation property. With the help of your advisor, you can pick the Portfolio that's most appropriate for your target date. Simply match the time horizon with the right Portfolio.

The Fidelity advantage
